SuperTuxKart is based on TuxKart (http://tuxkart.sourceforge.net) by Steve Baker. It was picked up by the Linux Game of the Month project and got a big overhaul during this time, but was left in an unfinished state. A new set of maintainers, namely hiker & coz, took over in 2006, and we are glad to announce our first release here. You can find more details on:

 http://supertuxkart.berlios.de

- Mac OS X 10.4, Mac OS X 10.3.9 work
- X11 installed

To start SuperTuxKart open up X11 and type: /usr/local/bin/ supertuxkart

Mac-Version by Fl0r!an, -Nuke- and xeno74 from Games4Mac.de Community.
